

Weed, Pest Control & Revegetation

COOE provides cost effective, quality solutions to environmental challenges. Our team of experienced professionals can provide all your weed, pest control and vegetation management solutions.

Profile

COOE have hands-on knowledge of vegetation, weed and pest management and the expertise to assist with pre-site assessment to identify the appropriate and most efficient pest and weed control methods. Our qualified and experienced bush regeneration team are fully equipped with specialised equipment to successfully restore any site.

Our experienced staff include a former Director of Bushland Restoration Services, who has pre-qualified with the Department of Planning, Transport and Infrastructure (formerly TransportSA) and managed large scale planting programs such as the South-Eastern Freeway in SA and the Bordertown to the Border project.

Our Services

- Pest and weed control
- Pest & weed management plans
- Direct seeding
- Nursery services
- Seed collection and propagation
- Tubestock planting

- Revegetation planning and monitoring
- Bush care
- Preparation and accounting for carbon credits
- Significant Environmental Benefit calculations

Project Examples

Terramin Australia Pty Ltd – since 2008 COOE provided rehabilitation services including seed collection, tube stock planting and preparation of native vegetation management reports. We designed the rehabilitation program, conducted rehabilitation trials to assess appropriate soil for future use and collected and cleaned native seed.

Hillgrove Resources – ongoing work has included pest and weed identification, mapping and control, seed collection, tube stock planting and preparation of native vegetation management reports. COOE manage planting of grassland and woodland species, including the significant *Lomandra effusa* and *Eucalyptus odorata*, both on the mining lease and for visual screening on surrounding roads.

COOE Pty Ltd ABN 65 147 909 451
